

Circle Run June 1st to June 3rd

Below is a 2-night, 3-day weekday run. We're planning a run from Nanaimo to Harrison Hot Springs to Whistler to Comox via the Sunshine Coast. There are many nice roads to be traveled, especially days 2 and 3. We realize that many club members will have to work and won't be able to join us, but we're hoping that this weekday travel may appeal to those of us that are retired or have days off during this period.

Monday, June 1st

Meet at Brooks Landing, 2000 North Island Highway, at 9:15am on June 1st. Please meet on the Departure Bay Road side of the Mall. At 9:30 we will proceed down to the ferry to catch the 10:30a ferry which will put us into Horseshoe Bay approximately noon. (FYI: Brooks Landing has Staples and Fairway Market on the Highway side)

From there we will proceed at a leisurely pace to Harrison Hot Springs. We should be there early enough that people can do some shopping or perhaps enjoy the pools.

Tuesday, June 2nd

Today, we will travel up the Fraser Canyon to Cache Creek, west to Lillooet, Pemberton, and finally to Whistler.

Wednesday, June 3rd

The morning of the 3rd we will travel south on the sea to sky highway to Horseshoe Bay. We will catch the Langdale Ferry and travel north along the Sunshine Coast to Earls Cove Ferry and then on to Powell River, catching the 5pm ferry from Powell River to Comox and arriving in Comox by 6:45 p.m. There should still be lots of daylight to travel home. If those from Victoria do not wish to continue they will be able to catch the ferry to Nanaimo and continue home at this point.

Ferry Cost:

By purchasing a "Round Trip" on the ferry it will be \$164.30 total for car and 2 passengers.

In Harrison Hot Springs we will be staying at the Harrison Beach Hotel and in Whistler at the Crystal Lodge Hotel. Both hotels will be approximately \$100.00, plus tax per night.

Anyone interested in accompanying us who hasn't already signed on, please contact Ken Armit at k_armit@telus.net or call 250-339-6739.

RSVP Deadline: 10th May 2009
